MEETING MINUTES

DATE: 2025-11-18 @ 12:00 PM EST | ATTENDEES: Brett, David, Ivan, Marc, Nathan, Amish, Anish, Zaki, Fares

OVERVIEW

The team aligned on final product expectations, shared progress on UI, backend work, and bug fixes, and discussed alternative approaches for the dateframe visualization. Deadlines for upcoming deliverables and partner expectations were confirmed, along with next steps for the river view and code review build.
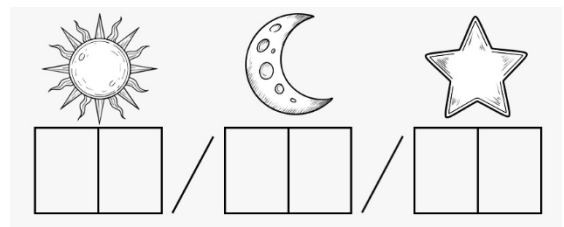

1. AGENDA

- Progress Updates and Expectations for the Final Product.

2. TEAM UPDATES

- Amish & Anish
  - Working on column view for notes.
  - Transaction History:
    - List view complete
    - River view base ready; UI refinements and scroll behaviour pending
  - Fixing UI inconsistencies across screens.
- Nathan
  - Working on Taler backend integration.
  - Added dynamic country flag overlays on chest icons.
- Fares & Zaki
  - Zaki:
    - Removed text from the Receive dialog
    - Will fix overlapping purpose icons and currency display issues
  - Fares:
    - Fixing UI bugs, including whitespace along screen edges.

3. DISCUSSION ITEMS

- All screens remain landscape.
- Exploring alternative visual representations for dates.
- Proposed iconography:
  - Sun → Day
  - Moon → Month
  - Star → Year
- Brett will share guidance/assets for River View.
- App can technically show 6-digit dates, but it is not required.

4. PERMISSIONS & DESIGN DECISIONS

- Location permissions are not needed.
    - Marc previously inferred flags from currency, not from Location Permissions.
    - Ivan confirmed no need for location access.

5. DELIVERABLES, MEETINGS & MILESTONES

- **Next Deliverable due:** 28 November
- **Final presentation:** 3 December
- **Brett will send graphical guidance for river view; must be implemented by** Tuesday, Nov 25.
- **Next partner meeting**: Tuesday, Nov 25 @ 11 AM EST
- **Ivan requested a build for code review by** Thursday/Friday, Nov 20/21.
- **Next Release**: Nov 28
